

PLAYSTATION 3 DOCKING STATION

DOC FEATURES

A rugged, slim PS3 docking station offering 2 elements of in-flight entertainment for aircraft. Designed specifically to connect to the Sony PlayStation 3 (not included). The PS3DOC is a great solution to bring high-definition movies and video games into the aircraft

- Vertical mounting to allow for installation in the narrowest areas
- Can be interfaced with Flight Display Systems HD LCDs for a true high-definition experience
- Designed with a built-in fan to help dissipate heat
- Output either HD via HDMI cable (not included) or standard definition via composite cable (not included)
- PlayStation is sold separately
